1959 INTRODUCTIONS and PRICE LIST

Hello EVERYBODY! Here we are in the middle of it again — that wonderful time of year, THE IRIS SEASON.

And something besides the blooming of iris is going on around here as you can see by the difference in our publication. This is our fourth anniversary and we find that some re-evaluation, reorganization, and planning are necessary in order to get the business to paying it's own expenses. On top of that WE HAVE TO MOVE OUR LOCATION AT THE END OF THE SEASON, and what a job that will be. PLEASE NOTE THAT WE WILL BE AT THIS PRESENT LOCATION THROUGHOUT THE 1959 SEASON and this address is still our link with you during this year. We will let you all know as soon as possible what our new address will be in 1960. AND PLEASE DO NOT HESITATE TO ORDER YOUR IRIS FROM US, AS USUAL, THIS YEAR, your orders will receive the same careful attention that you expect from us.

Help!

GARDEN FAVORITES, BARGAINS—See page 25.

Here is your chance to load up on some of the best of the popular iris so that we won't have such a load of iris to move.

THANKS!

Sid DuBoise

Ben Hager

1959 MINIATURE DWARF INTRODUCTION

TOMORROW (Helen Stevens) 5½" to 10" (Thisbe X ?).....LIMITED.....NET.....7.50

You gardeners may turn up your noses at this one, but watch the breeders flock in! TOMORROW is a pure white aphylla with yellow reticulations on the haft — at least we are pretty sure from its breeding records that it is a true aphylla with 48 chromosomes since it crosses both ways with Tall Bearded and Standard Dwarf (Lilliput). In appearance it is simply a white Thisbe resembling the parent in nearly all characteristics. A small iris with a BIG future.

MINIATURE DWARF IRIS

These little fellows are the first bearded iris to bloom in the spring and are wonderful for that spot where something small and special is needed in the garden.

1959 STANDARD DWARF INTRODUCTIONS:

DANCING BEE (Earl Roberts) 11" (Brite X ?) HM '58 NET 10.00

I wish we could find the bee who carried the pollen to the flower of Brite that resulted in this little iris. He'd be worth keeping around if he continued being so clever in his breeding program. This standard dwarf is certainly one of the finest to yet be offered for your garden. Really a new color combination and a delightful one with S. a pale lemon yellow and falls a pastel violet. The standards are closed and the falls horizontal, the whole tailored and very pert in carriage. The flowers are held well above the foliage and the plant is neat and produces a terrific amount of bloom; still finishing the season off with plenty of increase for the next year.

LITTLE DOGIE (Earl Roberts) 11" (Mariposa Mia X Cretica) LIMITED NET 10.00

This now famous cross has produced yet another beautiful little plicata. Here the flowers are carried well above the foliage and the blue plicating on the white ground is very neat like regular hem-stitching all around the standards and falls. Unlike other plics in this class, LITTLE DOGIE has very fertile pollen as well as being a good pod parent. Beard white; Style arms violet.

BROWN BANTAM (Clarence Jonas) 11" (Yellow Bantam X (Tall Pink x Cretica)) NET 5.00

We've all been waiting for a good brown Lilliput, and here it is with an orange beard, fine form, and floriferous. A great new addition to this class.

STANDARD DWARF BEARDED

A little larger in proportion and with showier clump effects. These bloom right after the Miniature Dwarfs in most cases. Included here are the new famous LILLIPUTS.

1959 MINIATURE TALL BEARDED (Table) INTRODUCTION:

DESERT QUAIL (Earl Roberts) 24" (Widget X Welch 444)NET.....3.00

Another Miniature Tall from the same cross that produced PARAKEET which won an HM award last year. This one is different in color but has the same wonderful branching with up to three buds per socket. The flowers are appealingly small with yellow standards and white falls edged yellow. Faint plicata marks decorate the hafts and down the side of the falls.

MINIATURE TALL BEARDED IRIS (Table Iris)

Small flowers, height of stem 15" to 25", wiry, flexuous, much branched stems and proportionate foliage. Bloom with Tall Bearded Iris.

BORDER IRIS INTRODUCTIONS FOR 1959:

PINATA (Kleinsorge) 26" ((#371E: Minuet X Ballet Dancer) X Cascade Splendor) HC '58 as No. 432 NET.....10.00

Remember, from down Mexico way, the gayly decorated basket, or Pinata, which is hung from the rafter at Christmas time, and that the kids hit with bats and sticks until it splits and showers them with gifts? Well, when you break open the Piggy Bank and shower us with "pesos" you'll get a gift for your garden that will spark it with Fiesta Frivolity for years and years to come. Breeders BEWARE! You'll have difficulty trying to figure out how this one can be improved . . . and it is different! The flowers are in proportion to its height and are wide and ruffled; standards are the clearest pastel violet or lavender, domed and closed and contrast sharply with the falls which are flaring with molten gold flowing out over a buffy ground. Stems are branched and the foliage short.

FRENCHI (Bennett Jones '59) 24" (Lottie Lembrick X (48C: Spindrift x Jeb Stuart) HC '58 #232 NET 10.00

It is difficult to restrain ourselves from becoming as flamboyant as a Parisian chanteuse in our interpretation of this provocative little mademoiselle. The color tones are so rich and vibrant that a song could best describe it. The clean pink orchid standards harmonize lushly with the obicular, horizontal falls of deep velvety petunia purple. With a generous dash of carmine lipstick the thick beards flash a vivacious smile at us that completes the allegory. — Well proportioned in all parts.

THE ABOVE TWO BORDER IRIS ARE BEING INTRODUCED WITH BENNETT JONES OF RALEIGH HILLS GARDENS, PORTLAND, OREGON.

DOLL FESTIVAL (Sanford Babson) 26" (Ranger X Bali Belle) NET 7.50

There is an almost unreal quality about the happy color combinations and precocious personality of this little iris. Buffy cream standards and smooth flaring fuchsia falls give us a new color duo for bearded iris. Conformation of size and form are perfection.

ROBERT MELROSE (Jim Melrose) 25" (Oriental Glory X Good News) NET 7.50

Named for Mary and Jim's six year old son.

Fits the Kid's personality, too. Bright laughing amber standards and falls of a blending of rich subtle colors; plum, red, and brown, but with a gay dash of bright blue down from the bronze yellow beard, and in addition the horizontal and rounded falls have a narrow edge of amber. Typical small border iris and style.

BORDER BEARDED IRIS

These are the shorter members of the Tall bearded group, both diploid and tetraploid, here separated for the convenience of breeders. Blooming time is with the Tall Bearded. Height 15" to 30". Only the best of the older varieties are included in this group.

1959 TALL BEARDED INTRODUCTIONS:

PINK DRIFT (Sass-Graham) 30" (Memories X Paradise Pink) NET 10.00

Let the rest of your iris garden be "Symphonic sweeps of color" with dramatic color contrasts and accents, but keep one spot between the Border Iris and the Talls for the delicate endearing charm of this true pink flower; even the beard is pink. An exceptionally floriferous iris with broad flaring flowers and refined even texture.

COMMENDABLE (Sass-Ohl) 36" NET 25.00

(53-442: a Great, Great, Great Grandparent of this was the variegata, Casque D'Or, but otherwise the parentage was made up of Tobacco Road, Prairie Sunset, and Golden Age through a long line of brown, red and blended seedlings) X (Persian Robe; (Amigo x Vanda) X (45-79 x Louise Blake)

There is no doubt that the breeding of iris can be one of the most excitingly absorbing endeavors that can be undertaken. To be able to cross a line of varieties and watch the results, some surprising and some predicted, and to see the different characteristics pass on and recombine in each succeeding generation and to be able to direct those trends to a certain degree—and then have something turn up that is "out of this world" and completely unexpected . . . Well, here is one, whether "predicted" or a "surprise" it IS new.

A PASTEL AMOENA from entirely different line of breeding. The standards are glistening white and the falls are soft light violet blue. Well branched stalk, fine large flower form and a sturdy grower.

BRONZE OVERLAY (Sass-Graham) 36" NET 10.00

(Autumn Hues: 40-40, yellow plic x Rainbow Room) X (48-175: Tobacco Road X 43-40: brown blend)

A further advance in the Sass brown blends that is richer in tone, with wide fluted form, and thick substance. Standards are tan washed bronze. Falls buff overlaid deep bronze brown with a maroon brushing across the hafts. Bronzy yellow beard.

TANBARK (Sass-Graham) 36" NET 15.00

((Desert Flower: all Sass plicata lines) X (53-156: Ivory Petals x (46-203: Flora Zenor x Flamingo Pink)) X ((46-111: Garden Flame x (Golden Age x Prairie Sunset) x (H. P. Sass 28-36 x Casque D'Or))

This is a sparkling light golden honey brown self even to the beard with the focal emphasis of penciled brown veins on the broad haft. 123456 7890\$ ETAOINSHRDL

STEPPING STONE (Sass-Graham) 34" NET 20.00

(parentage below)

A "break" in color combinations that is pretty exciting in itself, but its use in future breeding holds all sorts of possibilities. So let's describe it briefly and then concentrate on its antecedents. The standards are a pastel tone of pearly glowing pink with no off color and the falls are clear yellow. The colors are of equal tonal value and do not clash but harmonize into a duet of pure delight.

The pod parent of STEPPING STONE was a yellow bitone of a line of Flora Zenor by the variegata Persian Prince crossed with a seedling of Flora Zenor by another flamingo pink. This seedling was crossed to Pink Giant (Cotton Candy X Pink Sails) to give the yellow bitone which was the pod parent. The pollen parent was a tangerine bearded white which came from a pink out of a Flora Zenor seedling by a red seedling out of Garden Flame. This seedling was pollinated by a yellow plicata out of typical Sass plicata lines. BREEDERS LOOK! No wonder it is a "break". In the background is variegata, red, plicata and pink. What a parent it should be!

SOFT LIGHT (Sass-Graham) 36" NET 10.00

(Pod parent out of Matula-Prairie Sunset lines X Fantasy) X (Pollen parent from (Flora Zenor X Lake Huron x Alba Superba) X (a white: 43:35 x Vanda)

The light of a flickering candle and the glow of a newly risen full moon are captured in this flower to add their gently soft yellow light to the spring sunshine. A self color even to the beard, with wide ruffled petals; the flower is poised on sturdy well branched stems in a fashion of majestic grace. (Should be an excellent breeder for "pink variants" including The Beard on almost any color.)

GENTLE LADY (John Ohl) 36" NET 15.00

((50-1: At Dawning X pale amoena) X (a Sass recessive white seedling out of plicatas))

A silk and satin portrait of a very genteel lady; soft, suave and most feminine. The standards are a flesh and cream delicately blushed pink and the falls further blended with translucent orchid and lavender but so ethereally pastel as though dusted daintily with a powder puff. Classic form and posture. The color, though pastel, is definite and does not fade.

THE ABOVE IRIS WE ARE COINTRODUCING WITH HELEN GRAHAM AND JOHN OHL OF EL DORADO IRIS GARDENS, EL DORADO, KANSAS.

OPULENT (W. B. Davis) 36" (Lady Mohr? x ?) NET 7.50

The name so well describes the wide ruffled form of this iris with its domed standards and flaring full shouldered falls. The color is soft gold; lighter in the center of the falls and with a bronze flush on the hafts.

DAWN ROSE (Bennet Jones) 38" NET 15.00

(Pink Formal x Courtier) X Happy Birthday.

If a pale blue cloud should drift across the horizon and the first pink rays of the morning sun reached up to envelop it, you would see the fresh clean color that a clump of this iris will bring to your garden. The shade is raspberry rose, pastel in tone and the flowers are large and wide with a slight crinkle and lusciousness around the edge of the otherwise tailored petals. The color carries for long distances. The branching is not superior but the plant is exceptionally floriferous.

CHAMPAGNE FLIGHT (Sanford Babson) 42" (E61-1 parentage ? X Figurine) NET 20.00

The wings of flight are in the form and poise of this magnificent flower; the wide closed standards and almost horizontal falls are both deeply fluted and waved and though seemingly possessed of the desire to fly to the blue spring sky, they are firmly earthbound by the sturdy stalk. Three to four branches carry two to three buds in each placement and guarantee a long season of bloom. The color is that of soft lavish color popularly known as champagne and a complete self except for the euphonious dark brown veins patterning the haft almost to the tip of the beard. An iris of luxurious essence as well as growth habit.

THE NOVELTY SHOP

In which we introduce and list iris "FOR THOSE WHO ARE LOOKING FOR SOMETHING BEAUTIFUL BUT DIFFERENT."

CRAZY CLOWN (Sanford Babson) 40" NET 7.50
((Snow Flurry x Rememberance) X Mexico x Prairie Sunset) X Tobacco Road))

Will your sense of humor allow you to invite a raucous comedian to stand among the prim and lovely ladies of your iris garden? Well, here is the character for you. Gay and harlequinesque, shouting his buffoonery and laughing at your attention. — And yet a fascinating flower of good quality. The standards are glittering amber flushed with pink. Flaring falls repeat the amber but are flushed with lavender maroon and pin stripes are sketched in a vertical pattern. To complete the clownish attire, heavy red reticulations adorn the broad shoulders of the falls. There is nothing bashful about this **CRAZY CLOWN**, the flowers are huge and the stalk is tall and well branched.

BLAZE AWAY (Sanford Babson '58) 34" (Mexico X Tobacco Road) NET 5.00

From a cross that has produced many great iris, comes this attractive flower that we have liked and watched in Mr. Babson's seedling patch for several years. It is a bright flower; the color is amber yellow with deeper tints of amber at the tips of the petals. The standards are domed and closed and the horizontal falls are wide and rounded — and right in the middle of them, surrounding the bronze beard — is a big red maroon signal patch! This "blaze" rays right out onto the falls but covers less than half of the area of the fall. The signal patch is inherited in the children of **BLAZE AWAY**; **RATTAN** (Babson '57) is one of its children.

GUNSMOKE (Earl Roberts '58) 36" (Sib. to MARION HAMILTON) NET 5.00

This is a subtle wisp of color that only a few will really appreciate, but these few will find it both intriguing and lovely. The color is a light to medium, smoky, plum brown; smooth and uniform throughout and the note of brightness is there in the flash of the tangerine beard! Both standards, which are domed and closed, and the falls, semi-flaring, are extra wide and fluted. The stem is well branched and the plant is vigorous.

RHYTHM (Ballard '54) not one of our introductions, but one that belongs in this list. A real "strangey" with no standards but SIX falls all with beards. Violet, hafts heavily veined.. Style arms cream..... 2.00

TALL BEARDED IRIS

This class needs no introductory comment. These are the iris that you all know and favor.

RECENT TALL BEARDED IRIS IMPORTS FROM ENGLAND

We will have several of the very newest English introductions to offer here in 1960, having imported these iris this past season, they are now growing in our display garden.

REMONTANT BEARDED IRIS

These iris bloom both spring and fall or winter. Those that rebloom in the winter will do so only in very mild climates. The varieties marked with a "dot" are those that are dependable fall bloomers in cold areas. For the breeders we have marked the fairly infertile intermediate remontants with the number of chromosomes, thusly (44). The probable month of rebloom is also entered after the name of the iris.

1959 ARILBRED INTRODUCTION:

WIND SHADOWS (Ralph Conrad) 40" (White Ruffles X C.G. White onco "B" series) HC '58 NET 25.00

No flights of fancy could describe this iris better than the statistics themselves. The enormous flowers, 7" to 8", are exceptionally wide and the petals are deeply waved, standards are domed and the falls flaring. These are carried on tall adequately branched stalks. But the color — soft pearl grey! When first opened the flower has a lavender flush, but on a sunny day this disappears quickly. The haft is washed

golden brown but the point to which the eye is first drawn is the dark bronzy brown beard, the dark accent of deeper shadow among the elusive grey shadows. For an Arilberd, this iris is especially vigorous seeming not to be effected by the diseases that plague this group. It has been reported to be a good grower in cold areas, as well.

SHARKSIANA (Earl Roberts) FOR BREEDERS ONLY

NET 15.00

A cross of Sharkskin X I. susiana that has been counted at 44 chromosomes, indicating that the 20 chromosomes of I. susiana have been inherited in the unreduced state, giving a double shot of the onco genes. It is fertile as a pod parent (we got two pods on it by Asoka of Nepal and Kalifa Kabul) but the fertility of the pollen is not definitely known. The flower is a horror but the plant seems to have a high degree of disease resistance uncommon in this type of hybrid. Color: pale greenish blue white, with a few splashes.

ARILBRED IRIS: Section A, easy to grow.

This section includes the famous "Mohr" iris and others in the wonderful array of form and color inherited in these hybrid strains.

ARILBREDS and ARIL SPECIES: Section B, less easy to grow.

Give these summer dry-out, lime soil, and excellent drainage. Lift, divide drastically and store the pure species after bloom and plant again in October. Store the rhizomes in dry wood shavings or vermiculite and place in a cool dry place.

THE MUSEUM OF BEARDED IRIS

*PALLIDA VARIEGATA (Zebra) variegated leaves .75
 ALBICANS, 44 chromosome hybrid, collected..... .75
 KHARPUT, 44 chromosome hybrid, collected..... .75
 KOCHII, 44 chromosome hybrid, collected..... .75
 *PALLIDA DALMATICA, prob. form of pallida..... 1.00
 *SWERTI, collected, poss. plicata from pallida..... 1.00

1813

*NEGLECTA (Horne) (variegata X sambucina?)..... 1.00

1840-1900 \$1.00

*HECTOR (Lémon 1840) prob. form of I. variegata.
 *IMOGENE (Lémon 1840) light blue. Form of pallida.
 ROLANDIANA (Lémon 1840) a typical neglecta, whether it is a form of pallida, or a cross of I. pallida X I. variegata is in question. S. light blue. The F. are deep blue lined with white; horizontal.
 *VICTORINE (Lémon 1840) amoena. The amoena pattern is a form of I. variegata with an inhibitor present in the genetical setup which covers the expression of the yellow color pigment. Thus, white standards and blue or purple falls instead of red or brown. These latter colors in iris are a combination of blue and yellow coloring.
 *INNOCENZA (Lémon 1854) probably an all white form of I. variegata.
 *SANS SOUCI (Lémon 1854 prob.) typical I. variegata. S. yellow, F. striped red.
 *PERFECTION (Barr 1880) 24" S. lavender, F. glowing blue purple. Typical neglecta.
 *ALBERT VICTOR (Barr 1885) blue self.
 *VICTOR HUGO (1887) yellow blend.
 *MRS. HORACE DARWIN (Foster 1888) white self.
 *QUEEN OF MAY (Salter 1896) pretty orchid self.
 *CAPRICE (Childs 1898) tones of rosy orchid.
 *MRS. NEUBRONNER (Reuthe 1898) all yellow form of I. variegata.
 *PRINCESS BEATRICE (listed by Barr 1898) probably a selected form of I. pallida.

1901-1920 .75 EACH

DOROTHEA (Caparne '01) blend, lavender, white.
 *HYPATHIA (Caparne '01).
 IVORINE (Caparne '01) 44 ch. hybrid. Ivory white.
 *DELICATA (Caparne '02) white and blue plicata.
 EDOUARD MICHEL (Verdier '04) ruffled rich purple.
 * indicates diploid.

ISOLENE (Vilmorin '04) the first evidence of the use of the tetraploid species. This may be a triploid as one parent was undoubtedly 2N. S. silvery rose, F. rosy mauve.

*GAJUS (G&K '06) S. yellow, F. striped red brown.
 *MADY CARRIERE (Millet '05) light blue blend.
 *COTTAGE MAID (Barr '06) here is an example of how some of the old ones turn up. Mrs. O. S. Scudder was the last to list this iris, according to the check list and she had her gardens here in Northern California. This was in 1923, but there is still a little of this iris around, although the name was declared obsolete and given to Mr. Gersdorf for one of his seedlings in 1938. A little blue bitone with white veining in the falls.
 *JEANNE D'ARC (Verdier '07) plicata, blue, white.
 *TROOST (Dennis '08) S. rosy purple, F. veined.
 *LORELEY (G&K '09) S. yellow, F. light violet.
 *QUAKER LADY (Farr '09) grey and yellow blend.
 ALCAZAR (Vilmorin '10) one of the first tetraploids to come from a tetraploid X diploid cross, from I. trojana. S. mauve, F. purple.
 *LOHENGREN (G&K '10) orchid pink.
 *MISS EARDLEY (Perry '10) yellow and purple.
 *PRINCESS VIKTORIA LUISE (G&K '10) S. pale yellow, F. light purple.
 *QUEEN ALEXANDRA (Barr '10) pink & yellow blend.
 *RHEIN NIXE (G&K '10) amoena.
 *DAWN (Yeld '11) blue bitone.
 *PARISIANA (Vilmorin '11) white, netted purple.
 *DEMI-DEUIL (Dennis '12) purple veined silver.
 *LA NIEGE (Verdier '12) ruffled white..
 ZWANENBURG (Dennis '12) early Arilbred: Susiana X yellow chamairis. Grey overlaid gold.
 CRUSADOR (Foster '13) large light blue. 48 ch.
 LADY FOSTER (Foster '13) blue bitone. 48 ch.
 *MARY GARDEN (Farr '13) plicata.
 *NAVAJO (Farr '13) honey yellow, F. veined maroon.
 *DALILA (Dennis '14 S. cream, F. rosy plum.
 *ZUA (Dennis '14) crinkled white. Sport of the old, old white FLORENTINA of ORRIS ROOT fame.
 *POCAHONTAS (Farr '15) blue, white plicata.
 *SHERWIN-WRIGHT (Kohankie '15) cute yellow.
 NOKOMIS (Farr '15) white bitone.
 SOUV. de Mme. GAUDICHAU (Millet '15) one of the famous 48 ch. parents. Diploid X Tetraploid.
 LADY LILFORD (Foster '16) Arilbred. Dark violet.
 *AFTERGLOW (Sturtevant '17) yellow.

MOTHER OF PEARL (Sturtevant '17)
 MRS. W. CUTHBERTSON (Perry '17)
 *BLUET (Sturtevant '18) small light blue self.
 B. Y. MORRISON (Sturtevant '18) blue bitone.
 *DREAM (Sturtevant '18) rosy orchid.
 *Mme. CHERIE (Sturtevant '18).
 QUEEN CATERINA (Sturtevant '18) a triploid. Large
 rosy lavender flowers.
 *SHEKINAH (Sturtevant '18) yellow.
 SHERBERT (Sturtevant '18) yellow bitone in the back-
 ground of a lot of present plicatas.
 *DIMITY (Bliss '19) dainty blue and white plicata.
 *DR. MANTOR (Fryer '19) buff-yellow blend.
 MAGNIFICA (Vilmorin '19) 60 chromosomes. A penta-
 ploid. Lavender and violet bicolor.
 *MARSH MARIGOLD (Bliss '19).
 *MRS. ANDRIST (Fryer '19).
 *OCHRACEA CAERULEA (Dennis '19).
 ROSEWAY (Bliss '19) pink, red blend.
 *SWEET LAVENDER (Bliss '19) lavender bitone.
 TOM TIT (Bliss '19) flaring dark blue. Small.
 AMBASSADUER (Vilmorin '20) bronzy violet S. Falls
 dark maroon.
 ASIA (Yeld '20) bitone lavender blend.
 AUTOCRAT (Cleveland '20) blue bitone.
 *BALLERINE (Vilmorin '20) light blue bitone.
 PROSPERO (Yeld '20) lavender, purple bicolor.
 ROSE MADDER (Sturtevant '20) rose madder in color.
 SEMINOLE (Farr '20) reddish tones.
 TRUE CHARM (Sturtevant '20) plicata, blue, white.
 VIRGINIA MOORE (Shull '20) yellow self. One of the
 top yellows as late as 1930.

1921 .65 EACH

NANCY ORNE (Sturtevant) purple and gray.
 SAN GABRIEL (Dean) 40" pink orchid triploid.

1922 .65 EACH

APHRODITE (Dykes) 40" orchid.
 BRUNO (Bliss) 30" velvety dark bronze.
 DAMOZEL (Morrison) 34" blue and white plicata.
 SOLEDAD (Mohr) 26" light ivory yellow.
 STEEPWAY (Scott) peacock blue and purple.
 TENEBRAE (Bliss) 36" dark red, purple pitone.

1923 .65 EACH

GEORGE YELD (Perry) S. apricot, F. red, buff edge.
 JUBILEE (Sass) 26" buff, spotted dark copper.
 MAJESTIC (Bliss) 36" S. orchid, F. raisin purple.
 MIDWEST (Sass) 26" white and red purple plicata.
 MILDRED PRESBY (Farr) 24" amoena. White, purple.
 SIRIUS (Bunyard) blue bitone.
 YELLOW MOON (Sturtevant) 36" amber yellow.

1924 .65 EACH

AMBER (Dykes) light yellow self.
 AUTUMN KING (Sass) blue bicolor.
 CAROLINE E. STRINGER (Sass) rose orchid.
 GAVIOTA (Mohr) cream and brown plicata.
 GERMAINE PERTHUIS (Millet) dark purple.
 JACQUELINE GUILLOT (Cayeux) lavender blue.
 ODARLOC (Andrews) mauve.
 RAMONA (Mohr-Sturtevant) S. yellow, F. brown.
 RHEINGAUPERLE (G&K) big orchid pink.
 RIALGAR (Sturtevant) S. yellow, F. brown.

SIR GALAHAD (Shull) red bitone.
 *TRUE DELIGHT (Sturtevant) orchid plicata.

1925 .65 EACH unless otherwise noted.

*ELSINORE (C. H. Hall) buff yellow, tipped rose.
 *ARGYNnis (Williamson) S. yellow, F. chestnut.
 GOLDFISH (Wareham) veined blend of pinkish tan,
 tangerine beard.....1.00
 HIDALGO (Mohr-Mitchell) lavender self.
 *KING KARL (Sass) cream dotted cinnamon.
 *LODESTAR (C. H. Hall) bright variegata.
 LYCAENA (Williamson) S. white, F. deep violet.
 MRS. VALERIE WEST (Bliss) dark crimson bronze.
 SANTA BARBARA (Mohr-Mitchell) lavender blue.
 *SENSATION (Cayeux) aniline blue.
 *SIR MICHAEL (Yeld) S. sky blue, F. purple.

1926 .65 EACH

ANDROMEDA (Vilmorin).
 *APACHE (Farr) rose bitone.
 AUTUMN QUEEN (Sass) intermediate white.
 BRAVURA (Mohr-Mitchell) deep rose lilac.
 BUTO (Sass) purple bitone.
 EL CAPITAN (Mohr-Mitchell) light blue.
 FRA ANGELICO (Vilmorin) pongee, blue overlay.
 FRIEDA MOHR (Mohr) Triploid. Rose bitone.
 GRACE STURTEVANT (Bliss) velvety red-brown.
 KING TUT (Sass) S. gold; F. Hessian brown.
 *LABOR (Cayeux) violet-heliotrope self.
 *MIDGUARD (Sass) apricot, pink, buff blend.
 RED WING (Sass) dahlia carmine.
 *THAIS (Cayeux) medium orchid-pink.
 ULTRA (Sass) blue bitone.
 *VALENCIA (Mohr-Mitchell) orange buff self.
 *VESPER GOLD (Williamson) buff, amber flush.

 VATICAN PURPLE (Whiting) tailored violet.
 WHITE WEDGEWOOD (Grant) 44" bluish white.

COLLECTOR'S ATTENTION! ALL THE DYKES MEDAL WINNERS

Here are all the iris that have ever won the coveted DYKES MEDAL, either in the U.S.A., England, or France. Included are the almost extinct varieties, Margo Holmes, Sahara, and Nichole Lassailly. We've had quite a time running them down, but are happy that we can at last bring them to you. Sorry that we have told so heavily on Coralie and can't sell it this year. The reason for the high prices on the rarer items is that we simply do not have too much stock on them. When the stock is substantial enough so that we won't be sold out in one season at a lower price, that price will be brought down, until then, if you can't wait—here they are. We are not at all confident that we could replace this stock if we did not coddle it for a while..

U.S.A. DYKES MEDAL WINNERS.

1959 SPURIA IRIS INTRODUCTIONS:

WAKEROBIN (Walter Ferguson) 48" (Color Guard X Wadi Zem Zem).....NET.....17.50

The most highly rated of all white spurias at the Houston Spuria Iris Test Garden under the number 55-1A (See Bulletin 150, pages 84 and 92) Big, frilled, very wide petalled flowers with a light yellow signal and good branching giving many flowers. Foliage and stems very erect and vigorous. Early bloom season.
THRUSH SONG (Walker Ferguson) 36" (57-3: Lark Song X Color Guard).....NET.....15.00

When you hear the thrushes song at twilight you will know at once the color and thrill of this new spuria. Big flowers in a twilight shade of purple, an unusual color for these iris. A thrifty plant but with good increase and lots of bloom.

GOOD NATURE (Walker Ferguson) 49" ((57-9: Wadi Zem Zem X (Lark Song X two Opals))....NET.....15.00

Everyone who sees this spuria enters, without thinking, into the happy mood of its glistening lemon yellow beauty. A self color with colossal proportions and falls up to 2½ inches across. Vigorous upright growth and a long season of bloom.

1959 LOUISIANA IRIS INTRODUCTION:

| | |
|--|---------|
| WHOOPEE (Caroline Dorman) 30" | NET .75 |
| Huge carmine flowers open from yellow tinged buds, the yellow tinge remaining on the reverse and edging over on the surface margins of the petals. A big bright golden lance shaped signal on each sepal and yellow style arms sharpen the luscious effect of this wide, flat-open flower. | |

1959 DAYLILY INTRODUCTIONS:

GLOW WORM (W. B. Davis '59) 25" Ev. very wide, flat open flowers in gleaming orange scarlet. Color goes deep into the throat which is a small orange cup. Heavy bloomer; striking clump. NET 10.00

GLADSONG (W. B. Davis '59) 30" Ev. deep velvety peach enriched by a slight rose blending. Exceptionally

smooth, glowing color goes all the way into the throat and the petals are just tinged green at their base. 5" flowers, wide segments, open wide. One of the most beautiful flowers we have ever seen.
LIMITED.....NET.....25.00

ROSE LESLIE (W. B. Davis '59) 36" Ev. the full wide and ruffled flowers are a soft shade of salmon buff veined a deeper salmon and the bright green yellow throat is encircled by a wide rose red eyezone. the sepals are a little deeper in color than the petals. Well branched stems carry 20 or more buds. Mr. Davis named this lovely Daylily for his wife.NET.....15.00

DEBBIE (W. B. Davis '59) 30" Ev. as charming as it's namesake, Mr. Davis' small great granddaughter, the 3" flowers have wide petals of light maize yellow very slightly dusted, the sepals are heavily dusted purple on a yellow ground. Many flowers on a well branched graceful stem.NET.....15.00

SHIPMENT ANYTIME EXCEPT FROM MAY 15 TO JULY 15.

50% BONUS OFFER

On regular orders over \$3.00 you may take half the amount of your order in extra irises.

SAMPLE: If your order amounts to \$10.00, you may choose \$5.00 worth of FREE irises.

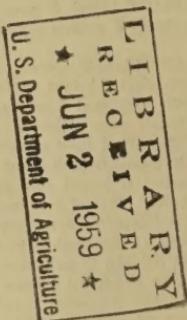

BE SURE AND ADD YOUR BONUS IRIS CHOICES TO ALL ORDERS.
WE WANT YOU TO HAVE THEM, SO DONT FORGET. Please DO NOT take bonus on LIMITED prices or on REDUCED prices.

DEALERS: No wholesale price list for this year.

TERMS OF SALE

Cash with mail orders, please, no C.O.D's. Postage prepaid on all orders of \$5.00 or more original cost (without addition of 50% bonus). On orders less than \$5.00 PLEASE ADD 50¢ to cover the costs of handling and postage. California patrons please add 4% sales tax. All orders for FALL DELIVERY must exceed \$3.00 or add 50¢ for postage and handling, even if these are ordered along with other iris, since they require separate handling. ORDER EARLY. THE EARLIER YOU ORDER, THE BETTER CHOICE YOU WILL GET, AND THE EARLIER YOU PLANT YOUR IRIS THE BETTER GROWTH THEY WILL GET FOR THE FOLLOWING YEAR, CONSEQUENTLY YOU WILL GET BETTER BLOOM.

All iris marked "limited", are in short supply. ORDERS FILLED IN SEQUENCE OF RECEIPT.
